

Issue Editorial Introduction

Praise be to Allah, Lord of the Worlds, and prayers and peace be upon the most honorable of the prophets and messengers, our master Mohammed and all his family and companions.

Our meeting with you is renewed through the twenty third edition of Abhath Journal, which contains ten researches encompassing various specialties in the domain of humanistic sciences. Researches in the field of Sharee'a sciences represented the biggest ratio, followed by Arabic language, educational sciences, history and geography, written by researchers from within Yemen and abroad.

The issuance of this issue coincided with a new development achieved by the journal through indexing the educational researches published in it in Sham'a Database. In addition, the journal participated in the 6th International Conference of Arabian Impact Factor in Cairo, which was held during the period from 24th to 26th June 2021 AD.

The Editorial Board of the journal has always been concerned about the regular issuance of the journal in the decided time. This is considered an augmentation to the researchers' trust in the journal, and an application of one of the most important distinguishing criteria of scientific journals.

In conclusion, we would like to thank Prof. Mohammed Al-Ahdal – the university president for his unlimited support for the journal, and the arbitrators who excelled in the evaluation process of the researches, and all those in charge of it for their efforts in developing the journal and maintaining its regularity.

We hope that researchers and those interested will benefit from the contents of this issue, praying to the Almighty to guide us all to what He loves and is satisfied with.

Head of the Editorial Board

Prof. Yousef Al-Ojaily

Contents of the Issue

- **A Literary Review of the Two Key Words “Teacher and Technology” and the Extent to which it Addresses Some of the Challenges that Affect the Effectiveness of Information Technology in School.**
